

## ROOM THERMOSTAT

Product Code: STTRFSN-C V2

### FEATURES:

- Diaphragm sensing element ensures close temperature control for all loads and applications.
- Attractive modern styling makes this frost thermostat ideal for locating in the living space.
- The STTRFSN-C V2 has volt free changeover contacts for use in cooling or heating applications.
- Mounts directly onto wall or conduit box.
- Improved easy-to-wire terminals.
- Double insulated (No earth required for operation).
- Suitable for use with combination boilers.
- Suitable for all control voltages up to 250V AC.
- ErP Class 1

The Corgi STTRFSN-C V2 is a dial-type mechanical frost protection thermostat. With neutral housing to blend in to any style decor. Designed for wall mounting, with 60mm fixing centres for back-box compatibility, and suitable for in-wall or surface-run wiring connection. The thermostat cover incorporates four breakouts for surface-run conduit.

The temperature regulation mechanism is the well-proven sealed bellows system. Install in parallel to the room thermostat in a cool area of the property, to protect the property, heating system and boiler against the risk of damage from frost.

### SPECIFICATION:

Temperature control range:	-5°C to 15°C
Switch Contacts	SPDT, voltage free
Switch type:	SPDT (Heating/Cooling)
Switch Rating:	10A (resistive) @ 230V AC
Switching differential:	1°C
Ambient temperature:	+40°C
maximum Insulation:	Class II
Applications:	Heating or cooling systems
Connection type:	2 wire (switched pair)
Combination boiler compatible:	Yes

Product code: **STTRFSN-C V2**

### Terminal connections:
